

TH4 Dropping System

TH4 dropping system, compact and efficient, with a dead weight of 320gram, 40kg ultra-high throwing load, a single flight can complete four throwing missions. It can be directly mounted on the DJI M210 V2 and M300 RTK drones through the DJI SkyPort V2.0 interface for using in emergency rescue, material delivery and other tasks.

Throwing hook Specifications

Model: TH4

Dimensions:

Maximum height: 78mm

Maximum diameter: 78mm

Weight: 320g±5g

Function

1. It can mount four projectiles at the same time and make them in turn
2. Digital picture tube can display the loading position
3. The maximum load is 20KG, and the maximum load of single throw hook is 10KG (the actual load is subject to the UAV load).
4. Fast disassembly and installation can be realized

Working temperature: -20—40 °C

Port Type: DJI SKYPORT

Control mode: DJI PSDK

Controllable distance:

DJI PSDK control mode is consistent with DJI PSDK link
