16mm Spigot Lighting Pole  
*Instructions*

# Spigot Lighting Pole Series

## Overview

The dual 16mm Spigot is available in varying voltages and battery fitting options offering a totally unique way to power LED/Panel lights.

## General Use

The Spigot range has been designed to be compatible with the widely used 16mm lighting C-stands. Providing users with a lightweight portable solution allowing batteries to be attached conveniently below the LED/Panel light that require external power. Voltages available will be nominal 14.4V from either V-lok, Gold mount or 28.8V wired in series for lights requiring a larger DC input voltage.

**Please check your equipment prior to use to ensure you have the correct product and are inputting the voltage that your equipment requires.**
